### WHAT STUDENTS NEED TO KNOW

### **The Revision Process**

- 1. Plan your revision timetable so you know what you will revise when. Most evenings, every weekend, most days in the holidays.
- 2. Make sure you know what content is required for each paper
- 3. Make sure you have all the notes. Condense that information mind maps, cue cards, post it notes ...
- 4. Learn that information read, cover, write, check
- 5. Practise past paper questions
- 6. Repeat steps 2-4 until you are fully confident. **Prioritise the things you got wrong or find hardest**

## Start by collecting all your information

- Do you know when your exams are?
- Do you know where all your books for each subject are?
- Do you know where your assessment folders are?
- Do you need to sort out and organise them?
- Is there work that is missing? Copy it up or photocopy it.
- Do this now.

## What is revision?

- Once you start, you'll find it's not insurmountable.....
  - Spend 50 times worrying about it = a portion of time to do it
