# LAPTOPS FOR LEARNING SCHEME 2022

Laptops for Learning enables all parents and carers the opportunity to obtain a laptop for their child to support learning at home, while students in Year 7, 10 and Sixth Form will also be using laptops in school. These devices will enable students to access a rich variety of additional learning tools and strategies. This will help students with their studies, as well as prepare them for their future working lives where using such devices are the norm in a wide variety of careers.

# SUMMARY OF THE DEVICES AVAILABLE

The first device available is the Lenovo 100w, which is ideal for most students. This is a lightweight laptop which has been specifically designed to withstand the bumps and spills of daily life in a school and at home while still supporting collaborative, online learning in the modern classroom. Its small design makes it ideal for fitting in a child's school bag. The laptop offers:

- **Spill-proof keyboard, drop-resistant design and reinforced ports**
- **Lightweight and compact design, with a carry case**
- **Up to 10 hours battery life**
- **Excellent value-for-money**

The higher specification Asus P14 will also be available, which some students may prefer. Detailed information can be found below. The main differences are:

- **Higher speed processor and more RAM memory, for faster operation and multi-tasking**
- **Larger screen size**

# LAPTOPS FOR LEARNING SCHEME PACKAGE OPTIONS

Below are the prices for two packages available.

The packages include several different methods of payment as shown in the tables below. Payment needs to be completed before your child leaves the school, so depending on your child's year group some options might not be available to you. For example, students in Year 10 will not have the 36-month option.

If your child leaves the school before you have made the final payment, you will need to either make a one off payment to clear the balance, or return the laptop to the school.
