MESSAGE FROM THE HEADTEACHER

Dear Parents / Carers

MESSAGE FROM THE HEADTEACHER

Happy Easter

Usually in my end of term message I talk about all the fantastic events that have taken place at FPSS. During a period that has seen lockdown, remote learning, testing and a four week return to school we have had few events. However, what FPSS has shown is an ability to work together as a community for the benefit of our young people. I would like to thank all the students, parents, carers and staff who have pulled together so amazingly since January. The positivity shown towards FPSS during this time has been humbling and I know your messages of support have helped our staff at this time. Thank you.

There is room for optimism as we head towards the summer term with FPSS and other sports clubs reopening, with the likelihood of more regular school days and structures returning as we head into Term 5 and 6. That said, we need to look after ourselves and each other. This week we have had students once again isolating. Please do follow guidance staying vigilant and safe over the Easter period.

I wish you all a Happy Easter and hope that you enjoy a fabulous break. I look forward to welcoming students back to school on Monday 19th April.

COVID-19 Measures and Face Coverings

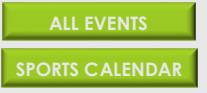

With no current significant changes to guidance FPSS will start after Easter with the same COVID-19 measures as at present. This includes home testing and in-school changes like our staggered start to the day. At present this also includes face coverings whose use in secondary school settings remain 'under review' by the government. There is the suggestion that an announcement on face coverings will be made during the Easter break so we will update you if things change.

Take care and keep safe.

Dr Andrew J Morrison (BA Hons, PGCE, MA, PhD)

MESSAGE FROM RBWM:

Testing at home throughout the Easter holidays for schools and colleges

Following the success of the asymptomatic testing programme on the return to school and college, it is vital to keep testing at home throughout the Easter holidays and into the summer term.

- test twice a week at home from now on (all those who are able to)
- report results online as positive, negative or void. This information is critical in helping us to understand the prevalence of the virus across the country
- continue to test twice weekly over the Easter holidays
- test before returning to school or college for the summer term, either the night before, or morning of, the first day back, to find and isolate any positive cases

Families and households can also access home test kits for adults.

CHEMISTRY OLYMPIAD

★ YEAR 13

Congratulations to Year 13 chemists Philip, Rajveer, Kyle, Freddie, and Adam who recently all competed in the Royal Society of Chemistry's 2021 Chemistry Olympiad competition. The competition is designed to develop critical problem-solving skills, and enable students to think more creatively and test their knowledge in new, real-world situations.

This year's competition included some particularly tricky questions on former Arsenal F.C. midfielder Mathieu Flamini's biochemistry company that synthesises levulinic acid, and the 'social-distancing' that occurs within molecules as different parts arrange themselves as far from each other as possible within 3-D space.
