

## MESSAGE FROM THE HEADTEACHER

Dear Students, Parents and Carers,

### Laptops for Learning

Over recent weeks we have launched our Laptops for Learning programme with parents of students who will be in Years 7 (current Year 6) and Year 10 (current Year 9) in September. Laptops for Learning enables parents and carers the opportunity to obtain a laptop for their child to support learning at home and in school. These devices will help students access a rich variety of additional learning tools and strategies. This will help students with their examination studies, as well as prepare them for their future working lives where using such devices are the norm in a wide variety of careers.

Following 18 months of research led by our IT Team, Governors and teachers, including work with several schools who have similar schemes, our research has shown that introducing Laptops for Learning can have a number of benefits including:

- Promoting greater engagement in learning.
- Enabling teachers to use a wider variety of learning techniques (particularly visual).
- Improving students' organisation.
- Helping students access up-to-date electronic textbooks and support materials within and beyond school.
- Helping further differentiate students' learning experiences.
- Enhancing collaboration between students and teachers.
- Improving how teachers can feedback to students.
- Enabling students to draft and redraft to improve and develop skills and work.
- Students being able to access subject specific

applications (e.g., in MFL, Art and Science).

- Promoting independent study.
- Introducing new learning opportunities including different ways of writing and further improving literacy.
- Ensuring all students have a more equitable access to IT.

While we have identified the benefits of laptops for students, it is important to emphasise that we see their value as an additional powerful learning tool. They will work alongside more traditional means of learning, not least because currently students will still sit written examinations.

The plan is to launch in phases:

2022/23 – new Year 7 and 10 (current Year 9) students.

2023/24 – new Year 7 and 10 (current Year 8) students.

2024/25 – new Year 10 (current Year 7) students.

We look forward to sharing further details with other Year Groups in the future.

### Examinations

External examinations began this week with some important GCSEs, and A Levels commencing in the next few days.

We have been delighted to see students' focus on their exams and wish all Year 11 and Year 13 students every success in the coming weeks both with their exams and their future education and career choices.

Take care,

Dr Andrew J Morrison (BA Hons, PGCE, MA, PhD)

## JUNIOR MATHS CHALLENGE

At the end of April many of our Year 7 and 8 students participated in the Junior Maths Challenge (JMC) competition. As usual our students did very well.

Four of our students received Gold, 16 students Silver and 32 students Bronze awards. Gordon Yiu in year 8 achieved Best in School and Oliver Fennell Best in Year 7. Gordon Yiu and Noah Moss qualified for the Junior Kangaroo Challenge in June as they performed excellently in the JMC.

All participants embraced all the ACHIEVE values of FPSS in preparing for and doing the actual JMC. We, as a Maths department, are extremely proud to offer our students these enrichment opportunities and are equally proud of their excellent achievements in these competitions.

**GCSEPOD REVISION ACTIVITIES**

Students are encouraged to use the attached booklet detailing revision activities to introduce different methods of revision.

These are very useful activities to help break up the usual revision methods.

GCSEPods are especially beneficial in the lead up to and during the imminent GCSE exams.

Featuring short videos and lots of 'Check and Challenges', students can quiz themselves on their learning to see how effective their revision/learning is and help them drill more into the topics they know well or need to work more on.
