Results / ethos

NYC!

Top 5 barriers to achievement last year

- 1. Low attendance
- 2. Ineffective or limited independent learning
- 3. Not acting on advice from teachers
- 4. Not putting in the hours
- 5. Leaving revision until the last minute (cramming)

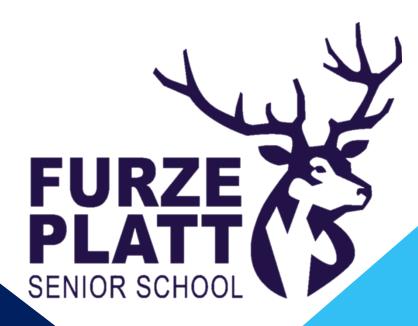

Priorities for this year

- To help your son or daughter maximise their potential by:
 - Developing most effective independent study practices
 - 2. Making the most out of contact time with teachers
 - 3. Helping them cultivate self-reflection, resilience and determination to succeed

PPE re-sits

- Students with E and U grades from PPEs (mock examinations) in June will be expected to re-sit these
- Many subjects will have done these or will be doing this over the course of the next few weeks
- Sixth Form may bring students into school if there are any re-sits needed beyond this time to help them with their progress and their exam confidence

How can students get the best from this year?

How do students meet expectations in the Sixth Form? - The Sixth Form Charter

- Attend all lessons punctually and have an ACHIEVE growth mind-set
- Commit to being an outstanding learner. Give 100%, 100% of the time
- Effectively manage relationships in a mature, respectful and intelligent manner
- Demonstrate a proactive approach, accepting responsibility for your own learning
- Contributing meaningfully to the Sixth Form Community and being proactive in the wider life of our Sixth Form
- Consistently maintain a positive attitude to learning grade Good or better (1 or 2) for all my subjects
- To dress smartly, meeting the Sixth Form Uniform
- To always wear your student ID badge
- Respect and look after the Sixth Form block
- Take personal responsibility to regularly check school emails.
- Attend all compulsory visits and events scheduled in the Sixth Form.

Attendance and Punctuality

- The school day:
 - 8:45 form time.
 - Students must be at their tutor bases by 8:40.
 - We recommend them being on site by 8.30am for a calm, organised start to the day
- Students may leave site to study if they have non-contact period
- They must sign in and out using the MS form link shared with them at the start of term.
- If students are struggling to make expected progress, we may support them by instructing them to remain on site in their independent study periods.
- Parents/carers may also request this if desired.
- If they are feeling poorly they need to see the school nurse.

Attendance and Punctuality

- Student attendance and punctuality to lessons is monitored in the usual way
 - 96% is
 our
 minimum
 expectation
 for Sixth Form
 attendance,
 although
 students
 should
 aim for 100%.

Sixth Form Newsletter!

- Make sure to watch your emails for the weekly newsletter, full of:
 - Notices and information
 - Careers and FuturesGuidance
 - Wider opportunities for our young people

Independent Study

- Students have, on average, 27 hours of lessons per fortnight cycle.
- We expect students to at least match this time commitment with independent study, revision and consolidation with research from the University of Warwick indicating that 44 hours of study per fortnight is what was practised to achieve an A grade.
- We give time to students to achieve this in school through:
 - Supervised Study periods (6 per fortnight)
 - Independent Study periods (14 per fortnight)
- If students use all of their TSS periods and independent study periods for work, then this leaves students with around 24 hours per fortnight or 1.7 hours of work to complete at home/in their own time each day to match Warwick's advice.
- If students manage their time and use their school time effectively for study, they will protect their work-life balance comfortably.

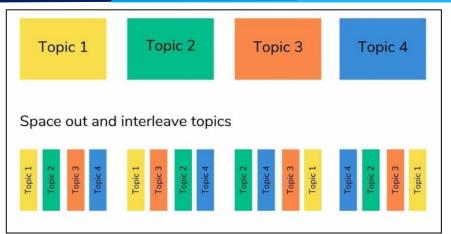

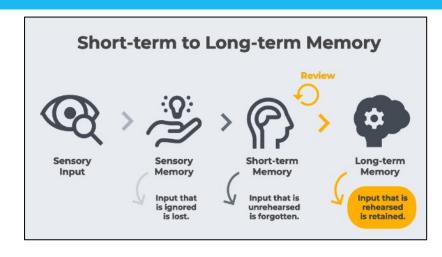

Some study reminders to help your children...

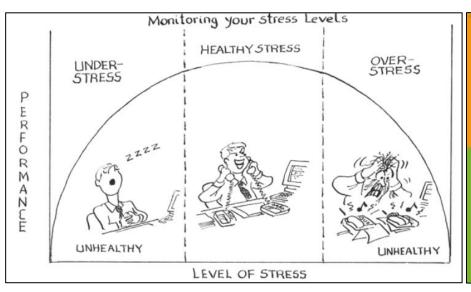

(things we've told students lots last year!)

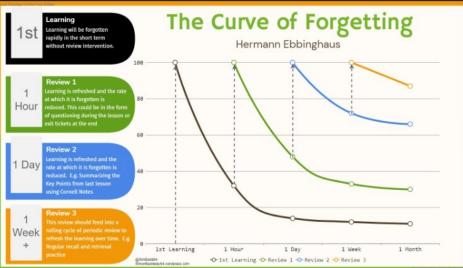

Study habits and skills

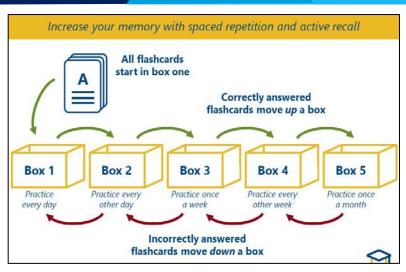

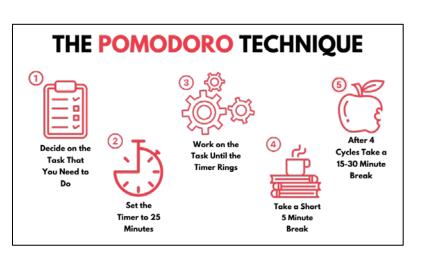

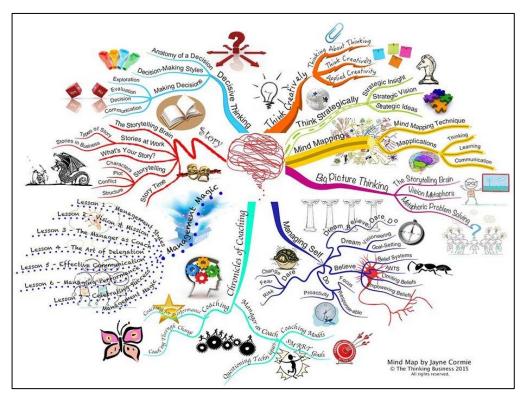

Study habits and skills

A Summary for parents and carers of valuable revision strategies

- 1. Students need to retrieve information be successful in their courses
- 2. Effective retrieval is only possible with continual revision and practise of learning
- 3. Organisation of notes must be accessible and encourage active revision
- Students learn best when they vary subject/content over fixed time limits
- 5. Mobile phones and music, while pleasurable, are a distraction in the main
