

GDPR Data Protection Policy

Statement of intent

- 1. Legal framework**
- 2. Applicable data**
- 3. Principles**
- 4. Accountability**
- 5. Data Protection Officer (DPO)**
- 6. Lawful processing**
- 7. Consent**
- 8. Sharing data without consent**
- 9. The right to be informed**
- 10. The right of access**
- 11. The right to rectification**
- 12. The right to erasure**
- 13. The right to restrict processing**
- 14. The right to data portability**
- 15. The right to object**
- 16. Automated decision making and profiling**
- 17. Privacy by design and privacy impact assessments**
- 18. Data breaches**
- 19. Data security**
- 20. Safeguarding**
- 21. Publication of information**
- 22. CCTV and photography**
- 23. Cloud computing**
- 24. Data retention**

25. DBS data

Statement of intent

Furze Platt Senior School is required to keep and process certain information about its staff members, students, families, and volunteers in accordance with its legal obligations under the General Data Protection Regulation (GDPR).

The school may, from time to time, be required to share personal information about its staff or students with other organisations, mainly the LA, other schools, and educational bodies, and potentially children's services.

This policy is in place to ensure all staff and governors are aware of their responsibilities and outlines how the school complies with the following core principles of the GDPR.

Organisational methods for keeping data secure are imperative, and Furze Platt Senior School believes that it is good practice to keep clear practical policies, backed up by written procedures.

1. Legal framework

1.1. This policy has due regard to legislation, including, but not limited to the following:

- The General Data Protection Regulation (GDPR)
- The Freedom of Information Act 2000
- Electronic Commerce (EC Directive) Regulations 2002
- The Privacy and Electronic Communications (EC Directive) Regulations 2003
- The Education (Pupil Information) (England) Regulations 2005 (as amended in 2016)
- The Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004
- The School Standards and Framework Act 1998
- Data Protection Act 2018
- Protection of Freedoms Act

1.2. This policy will also have regard to the following guidance:

- ICO (2018) 'Guide to the UK General Data Protection Regulation (GDPR)'
- DfE (2018) 'Data protection: a toolkit for schools'
- ICO (2012) 'IT asset disposal for organisations'

1.3. This policy will be implemented in conjunction with the following other school policies (under development March 2018):

- E-security Policy (Information Security Policy)
- Freedom of Information Policy

- CCTV Policy
- Child Protection and Safeguarding Policy
- Protection of Biometric Data Policy

2. Applicable data

2.1. For the purpose of this policy, **personal data** refers to information that relates to an identifiable, living individual, including information such as an online identifier, e.g. an IP address. The GDPR applies to both automated personal data and to manual filing systems, where personal data is accessible according to specific criteria, as well as to chronologically ordered data and pseudonymised data, e.g., keycoded.

2.2. **Sensitive personal data** is referred to in the UK GDPR as 'special categories of personal data,' and is defined as:

- Genetic data.
- Biometric data.
- Data concerning health.
- Data concerning a person's sex life.
- Data concerning a person's sexual orientation.
- Personal data which reveals:
 - Racial or ethnic origin.
 - Political opinions.
 - Religious or philosophical beliefs.
 - Trade union membership. - Principles.

'Sensitive personal data' does not include data about criminal allegations, proceedings, or convictions. In the case of criminal offence data, schools are only able to process this if it is either:

- Under the control of official authority; or
- Authorised by domestic law.

The latter point can only be used if the conditions of the reason for storing and requiring the data fall into one of the conditions below:

- The processing is necessary for the purposes of performing or exercising obligations or rights which are imposed or conferred by law on the controller of the data subject in connection with employment, social security, social protection, health or social care purposes, public health, and research.

3. Principles

3.1. In accordance with the requirements outlined in the GDPR, personal data will be:

- Processed lawfully, fairly and in a transparent manner in relation to individuals.

- Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes.
 - Adequate, relevant, and limited to what is necessary in relation to the purposes for which they are processed.
 - Accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that is inaccurate, having regard to the purposes for which it is processed, is erased, or rectified without delay.
 - Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data is processed; personal data may be stored for longer periods, insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes, subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of individuals.
 - Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction, or damage, using appropriate technical or organisational measures.
- 3.2. The UK GDPR also requires that “the controller shall be responsible for, and able to demonstrate, compliance with the principles.”

4. Accountability

- 4.1. Furze Platt Senior School will implement appropriate technical and organisational measures to demonstrate that data is processed in line with the principles set out in the GDPR.
- 4.2. The school will provide comprehensive, clear, and transparent privacy policies.
- 4.3. Records of activities relating to higher risk processing will be maintained, such as the processing of special categories data or that are in relation to criminal convictions and offences.
- 4.4. Internal records of processing activities will include the following:
- Name and details of the organisation
 - Purpose(s) of the processing
 - Description of the categories of individuals and personal data
 - Retention schedules
 - Categories of recipients of personal data

- Description of technical and organisational security measures
 - Details of transfers to third countries, including documentation of the transfer mechanism safeguards in place.
- 4.5. The school will implement measures that meet the principles of data protection by design and data protection by default, such as:
- Data minimisation.
 - Pseudonymisation.
 - Transparency.
 - Allowing individuals to monitor processing.
 - Continuously creating and improving security features.
- 4.6. Data protection impact assessments will be used, where appropriate.

5. Data Protection Officer (DPO)

- 5.1. Furze Platt Senior School's appointed DPO is:

Data Protection Officer, Satswana Ltd
 Company no. 09329065 www.satswana.com
 Tel: 01252 516898 email:
info@satswana.com It is the DPO's
 responsibility to:

- Inform and advise the school and its employees about their obligations to comply with the GDPR and other data protection laws.
 - Monitor the school's compliance with the UK GDPR and other laws, including managing internal data protection activities, advising on data protection impact assessments, conducting internal audits, and providing the required training to staff members.
 - Cooperate with the ICO and act as the first point of contact for the ICO and for individuals whose data is being processed.
- 5.2. An existing employee may be appointed to the role of DPO provided that their duties are compatible with the duties of the DPO and do not lead to a conflict of interests.
- 5.3. The individual appointed as DPO will have professional experience and knowledge of data protection law, particularly that in relation to schools.
- 5.4. The DPO will report to the highest level of management at the school, which is the Headteacher or, in their absence, a nominated deputy.

- 5.5. The DPO will operate independently and will not be dismissed or penalised for performing their task.
- 5.6. Sufficient resources will be provided to the DPO to enable them to meet their GDPR obligations.

6. Lawful processing

6.1. The legal basis for processing data will be identified and documented prior to data being processed.

6.2. Under the GDPR, data will be lawfully processed under the following conditions:

- The consent of the data subject has been obtained.
- Processing is necessary for:
 - Compliance with a legal obligation.
 - The performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.
 - For the performance of a contract with the data subject or to take steps to enter into a contract.
 - Protecting the vital interests of a data subject or another person.
 - For the purposes of legitimate interests pursued by the controller or a third party, except where such interests are overridden by the interests, rights, or freedoms of the data subject. (This condition is not available to processing undertaken by the school in the performance of its tasks).

6.3. Sensitive data will only be processed under the following conditions:

- Explicit consent of the data subject.
- Processing carried out by a not-for-profit body with a political, philosophical, religious or trade union aim provided the processing relates only to members or former members (or those who have regular contact with it in connection with those purposes) and provided there is no disclosure to a third party without consent.
 - Processing relates to personal data manifestly made public by the data subject.
 - Processing is necessary for:
 - Carrying out obligations under employment, social security or social protection law, or a collective agreement.
 - Protecting the vital interests of a data subject or another individual where the data subject is physically or legally incapable of giving consent.
 - The establishment exercise or defence of legal claims or where courts are acting in their judicial capacity.
 - Reasons of substantial public interest on the basis of Union or Member State law which is proportionate to the aim pursued and which contains appropriate safeguards.
 - The purposes of preventative or occupational medicine, for assessing the working capacity of the employee, medical diagnosis, the provision of health or social care

or treatment or management of health or social care systems and services on the basis of Union or Member State law or a contract with a health professional.

- Reasons of public interest in the area of public health, such as protecting against serious cross-border threats to health or ensuring high standards of healthcare and of medicinal products or medical devices.
- Archiving purposes in the public interest, or scientific and historical research purposes or statistical purposes in accordance with Article 89 (1).

7. Consent

- 7.1. Consent must be a positive indication. It cannot be inferred from silence, inactivity or pre-ticked boxes.
- 7.2. Consent will only be accepted where it is freely given, specific, informed, and unambiguous indication of the individual's wishes.
- 7.3. Where consent is given, a record will be kept documenting how and when consent was given.
- 7.4. The school ensures that consent mechanisms meet the standards of the UK GDPR. Where the standard of consent cannot be met, an alternative legal basis for processing the data must be found or the processing must cease.
- 7.5. Consent accepted under the DPA will be reviewed to ensure it meets the standards of the UK GDPR; however, acceptable consent obtained under the DPA will not be reobtained.
- 7.6. Consent can be withdrawn by the individual at any time.
- 7.7. Where the school opts to provide an online service directly to a child, the child is aged 13 or over, and the consent meets the requirements outlined in 7.2, the school obtains consent directly from that child; otherwise, consent is obtained from whoever holds parental responsibility for the child, except where the processing is related to preventative or counselling services offered directly to children.
- 7.8. In all other instances with regards to obtaining consent, an appropriate age of consent is considered by the school on a case-by-case basis, taking into account the requirements outlined in 7.2.

8. Sharing data without consent

- 8.1. The school may share information without consent in specific circumstances. To determine whether information can be shared with consent, the school will identify one of the other lawful bases for processing:
- **Contract** – the processing is necessary for a contract held between the school and individual, or because the individual has asked the school to take specific tests before entering into a contract.

- **Legal obligation** – the processing is necessary for the school to comply with the law (not including contractual obligations).
- **Vital interests** – the processing is necessary to protect someone's life.
- **Public task** – the processing is necessary for the school to perform a task in the public interest or for its official functions, and the task or function has a clear basis in law.
- **Legitimate interests** – the processing is necessary for the school's legitimate interests or the legitimate interests of a third party, unless there is good reason to protect the individual's personal data which overrides those legitimate interests.

8.2. Where the school is able to justify one of the lawful bases outlined in 8.1, an exemption applies, or there is a requirement under another law, information may be shared without consent.

8.3. Specifically, the GDPR does not prevent, or limit, the sharing of information for the purposes of keeping children safe, and information may be shared without consent if to gain consent would place a child at risk.

9. The right to be informed

9.1. Adults and children have the same right to be informed about how the school uses their data.

9.2. The privacy notice supplied to individuals in regard to the processing of their personal data will be written in clear, plain language, which is concise, transparent, easily accessible, and free of charge.

9.3. In relation to data obtained both directly from the data subject and not obtained directly from the data subject, the following information will be supplied within the privacy notice:

- The contact details of the controller (the school), and where applicable, the controller's representative, as well as the DPO.
- The purpose of, and the legal basis for, processing the data.
- The legitimate interests of the controller or third party.
- Any recipient or categories of recipients of the personal data.
- Details of transfers to third countries and the safeguards in place.
- The retention period of criteria used to determine the retention period.

The existence of the data subject's rights, including the right to:

- Withdraw consent at any time.
- Lodge a complaint with a supervisory authority.

- The existence of automated decision making, including profiling, how decisions are made, the significance of the process and the consequences.
- 9.4. Where data is obtained directly from the data subject, information regarding whether the provision of personal data is part of a statutory or contractual requirement, as well as any possible consequences of failing to provide the personal data, will be provided.
 - 9.5. Where data is not obtained directly from the data subject, information regarding the categories of personal data that the school holds, the source that the personal data originates from and whether it came from publicly accessible sources, will be provided.
 - 9.6. For data obtained directly from the data subject, this information will be supplied at the time the data is obtained.
 - 9.7. In relation to data that is not obtained directly from the data subject, this information will be supplied:
 - Within one month of having obtained the data.
 - If disclosure to another recipient is envisaged, at the latest, before the data are disclosed.
 - If the data are used to communicate with the individual, at the latest, when the first communication takes place.

10. The right of access

- 10.1. Individuals have the right to obtain confirmation that their data is being processed.
- 10.2. Individuals have the right to submit a subject access request (SAR) to gain access to their personal data in order to verify the lawfulness of the processing.
- 10.3. The school will verify the identity of the person making the request before any information is supplied.
- 10.4. A copy of the information will be supplied to the individual free of charge; however, the school may impose a 'reasonable fee' to comply with requests for further copies of the same information.
- 10.5. Where a SAR has been made electronically, the information will be provided in a commonly used electronic format.
- 10.6. Where a request is manifestly unfounded, excessive, or repetitive, a reasonable fee will be charged.
- 10.7. All fees will be based on the administrative cost of providing the information.
- 10.8. All requests will be responded to without delay and at the latest, within one month of receipt.

- 10.9. In the event of numerous or complex requests, the period of compliance will be extended by a further two months. The individual will be informed of this extension and will receive an explanation of why the extension is necessary, within one month of the receipt of the request.
- 10.10. Where a request is manifestly unfounded or excessive, the school holds the right to refuse to respond to the request. The individual will be informed of this decision and the reasoning behind it, as well as their right to complain to the supervisory authority and to a judicial remedy, within one month of the refusal.
- 10.11. In the event that a large quantity of information is being processed about an individual, the school will ask the individual to specify the information the request is in relation to.

11. The right to rectification

- 11.1. Individuals are entitled to have any inaccurate or incomplete personal data rectified.
- 11.2. Where the personal data in question has been disclosed to third parties, the school will inform them of the rectification where possible.
- 11.3. Where appropriate, the school will inform the individual about the third parties that the data has been disclosed to.
- 11.4. Requests for rectification will be responded to within one month; this will be extended by two months where the request for rectification is complex.
- 11.5. Where no action is being taken in response to a request for rectification, the school will explain the reason for this to the individual and will inform them of their right to complain to the supervisory authority and to a judicial remedy.

12. The right to erasure

- 12.1. Individuals hold the right to request the deletion or removal of personal data where there is no compelling reason for its continued processing.
- 12.2. Individuals have the right to erasure in the following circumstances:

Where the personal data is no longer necessary in relation to the purpose for which it was originally collected/processed

- When the individual withdraws their consent
- When the individual objects to the processing and there is no overriding legitimate interest for continuing the processing
- The personal data was unlawfully processed.
- The personal data is required to be erased in order to comply with a legal obligation.

- The personal data is processed in relation to the offer of information society services to a child.
- 12.3. The school has the right to refuse a request for erasure where the personal data is being processed for the following reasons:
- To exercise the right of freedom of expression and information
 - To comply with a legal obligation for the performance of a public interest task or exercise of official authority
 - For public health purposes in the public interest
 - For archiving purposes in the public interest, scientific research, historical research, or statistical purposes
 - The exercise or defence of legal claims
- 12.4. As a child may not fully understand the risks involved in the processing of data when consent is obtained, special attention will be given to existing situations where a child has given consent to processing and their later request erasure of the data, regardless of age at the time of the request.
- 12.5. Where personal data has been disclosed to third parties, they will be informed about the erasure of the personal data, unless it is impossible or involves disproportionate effort to do so.
- 12.6. Where personal data has been made public within an online environment, the school will inform other organisations who process the personal data to erase links to and copies of the personal data in question.

13. The right to restrict processing

- 13.1. Individuals, including children, have the right to block or suppress the school's processing of personal data.
- 13.2. In the event that processing is restricted, the school will store the personal data, but not further process it, guaranteeing that just enough information about the individual has been retained to ensure that the restriction is respected in future.
- 13.3. The school will restrict the processing of personal data in the following circumstances:
- Where an individual contests the accuracy of the personal data, processing will be restricted until the school has verified the accuracy of the data.
 - Where an individual has objected to the processing and the school is considering whether their legitimate grounds override those of the individual
 - Where processing is unlawful, and the individual opposes erasure and requests restriction instead.

- Where the school no longer needs the personal data, but the individual requires the data to establish, exercise or defend a legal claim.

If the personal data in question has been disclosed to third parties, the school will inform them about the restriction on the processing of the personal data, unless it is impossible or involves disproportionate effort to do so.

The school will inform individuals when a restriction on processing has been lifted.

14. The right to data portability

- 14.1. Individuals have the right to obtain and reuse their personal data for their own purposes across different services.
- 14.2. Personal data can be easily moved, copied, or transferred from one IT environment to another in a safe and secure manner, without hindrance to usability.
- 14.3. The right to data portability only applies in the following cases:
 - To personal data that an individual has provided to a controller
 - Where the processing is based on the individual's consent or for the performance of a contract
 - When processing is carried out by automated means
- 14.4. Personal data will be provided in a structured, commonly used, and machine-readable form. The school will provide the information free of charge.
- 14.5. Where feasible, data will be transmitted directly to another organisation at the request of the individual.
- 14.6. The school is not required to adopt or maintain processing systems which are technically compatible with other organisations.
- 14.7. In the event that the personal data concerns more than one individual, the school will consider whether providing the information would prejudice the rights of any other individual.
- 14.8. The school will respond to any requests for portability within one month.
- 14.9. Where the request is complex, or a number of requests have been received, the timeframe can be extended by two months, ensuring that the individual is informed of the extension and the reasoning behind it within one month of the receipt of the request.
- 14.10. Where no action is being taken in response to a request, the school will, without delay and at the latest within one month, explain to the individual the reason for this and will inform them of their right to complain to the supervisory authority and to a judicial remedy.

15. The right to object

15.1. The school will inform individuals of their right to object at the first point of communication, and this information will be outlined in the privacy notice and explicitly brought to the attention of the data subject, ensuring that it is presented clearly and separately from any other information.

15.2. Individuals have the right to object to the following:

- Processing based on legitimate interests or the performance of a task in the public interest.
- Direct marketing
- Processing for purposes of scientific or historical research and statistics.

15.3. Where personal data is processed for the performance of a legal task or legitimate interests:

- An individual's grounds for objecting must relate to his or her particular situation.
 - The school will stop processing the individual's personal data unless the processing is for the establishment, exercise, or defence of legal claims, or, where the school can demonstrate compelling legitimate grounds for the processing, which override the interests, rights, and freedoms of the individual.
- 15.4. Where personal data is processed for direct marketing purposes:
- The school will stop processing personal data for direct marketing purposes as soon as an objection is received.
 - The school cannot refuse an individual's objection regarding data that is being processed for direct marketing purposes.

15.5. Where personal data is processed for research purposes:

- The individual must have grounds relating to their particular situation in order to exercise their right to object.
- Where the processing of personal data is necessary for the performance of a public interest task, the school is not required to comply with an objection to the processing of the data.

15.6. Where the processing activity is outlined above, but is carried out online, the school will offer a method for individuals to object online.

16. Automated decision making and profiling

16.1. Individuals have the right not to be subject to a decision when:

- It is based on automated processing, e.g., profiling.

- It produces a legal effect or a similarly significant effect on the individual.
- 16.2. The school will take steps to ensure that individuals are able to obtain human intervention, express their point of view, and obtain an explanation of the decision and challenge it.
- 16.3. When automatically processing personal data for profiling purposes, the school will ensure that the appropriate safeguards are in place, including:
- Ensuring processing is fair and transparent by providing meaningful information about the logic involved, as well as the significance and the predicted impact.
 - Using appropriate mathematical or statistical procedures.
 - Implementing appropriate technical and organisational measures to enable inaccuracies to be corrected and minimise the risk of errors.
- Securing personal data in a way that is proportionate to the risk to the interests and rights of the individual and prevents discriminatory effects.
- 16.4. Automated decisions must not concern a child or be based on the processing of sensitive data, unless:
- The school has the explicit consent of the individual.
 - The processing is necessary for reasons of substantial public interest on the basis of Union/Member State law.

17. Privacy by design and privacy impact assessments

- 17.1. The school will act in accordance with the GDPR by adopting a privacy by design approach and implementing technical and organisational measures which demonstrate how the school has considered and integrated data protection into processing activities.
- 17.2. Data protection impact assessments (DPIAs) will be used to identify the most effective method of complying with the school's data protection obligations and meeting individuals' expectations of privacy.
- 17.3. DPIAs will allow the school to identify and resolve problems at an early stage, thus reducing associated costs and preventing damage from being caused to the school's reputation which might otherwise occur.
- 17.4. A DPIA will be carried out when using new technologies or when the processing is likely to result in a high risk to the rights and freedoms of individuals.
- 17.5. A DPIA will be used for more than one project, where necessary.
- 17.6. High risk processing includes, but is not limited to, the following:
- Systematic and extensive processing activities, such as profiling

- Large scale processing of special categories of data or personal data which is in relation to criminal convictions or offences.
- The use of CCTV.

17.7. The school will ensure that all DPIAs include the following information:

- A description of the processing operations and the purposes an assessment of the necessity and proportionality of the processing in relation to the purpose
- An outline of the risks to individuals
- The measures implemented in order to address risk.

17.8. Where a DPIA indicates high risk data processing, the school will consult the ICO to seek its opinion as to whether the processing operation complies with the GDPR.

18. Data breaches

18.1. The term 'personal data breach' refers to a breach of security which has led to the destruction, loss, alteration, unauthorised disclosure of, or access to, personal data.

18.2. The Headteacher will ensure that all staff members are made aware of, and understand, what constitutes a data breach as part of their CPD training.

18.3. Where a breach is likely to result in a risk to the rights and freedoms of individuals, the relevant supervisory authority will be informed.

18.4. All notifiable breaches will be reported to the relevant supervisory authority within 72 hours of the school becoming aware of it.

18.5. The risk of the breach having a detrimental effect on the individual, and the need to notify the relevant supervisory authority, will be assessed on a case by-case basis.

18.6. In the event that a breach is likely to result in a high risk to the rights and freedoms of an individual, the school will notify those concerned directly.

18.7. A 'high risk' breach means that the threshold for notifying the individual is higher than that for notifying the relevant supervisory authority.

18.8. In the event that a breach is sufficiently serious, the public will be notified without undue delay.

18.9. Effective and robust breach detection, investigation and internal reporting procedures are in place at the school, which facilitate decision-making in relation to whether the relevant supervisory authority or the public need to be notified.

18.10. Within a breach notification, the following information will be outlined:

- The nature of the personal data breach, including the categories and approximate number of individuals and records concerned.
 - The name and contact details of the DPO.
 - An explanation of the likely consequences of the personal data breach
 - A description of the proposed measures to be taken to deal with the personal data breach.
 - Where appropriate, a description of the measures taken to mitigate any possible adverse effects.
- 18.11. Failure to report a breach when required to do so may result in a fine, as well as a fine for the breach itself.

19. Data security

Confidential paper records will be kept in a locked filing cabinet, drawer or safe, with restricted access, and will not be left unattended or in clear view anywhere with general access.

Digital data is coded, encrypted or password-protected, both on a local hard drive and on a network drive that is regularly backed up off-site. Where digital data is saved on removable storage or a portable device, the device will be kept in a locked filing cabinet, drawer or safe when not in use. Memory sticks will not be used to hold personal information unless they are password protected and fully encrypted. All electronic devices are password-protected to protect the information on the device in case of theft. Where possible, the school enables electronic devices to allow the remote blocking or deletion of data in case of theft.

Where possible, staff and governors will not use their personal laptops or computers for school purposes. All necessary members of staff are provided with their own secure login and password, and every computer regularly prompts users to change their password.

If staff and governors need to use their personal laptops for school purposes, particularly if they are working from home, they must ensure their device has the appropriate software downloaded and information encrypted.

Emails containing sensitive or confidential information are password-protected if there are unsecure servers between the sender and the recipient. Circular emails to parents are sent blind carbon copy (bcc), so email addresses are not disclosed to other recipients. When sending confidential information staff will always check that the recipient is correct before sending.

Before sharing data, all staff will ensure:

- They are allowed to share it.
- That adequate security is in place to protect it.
- Who will receive the data has been outlined in a privacy notice.

Where personal information that could be considered private or confidential is taken off the premises, either in electronic or paper format, staff will take extra care to follow the same procedures for security, e.g., keeping devices under lock and key. The person taking the information from the school premises accepts full responsibility for the security of the data.

Under no circumstances are visitors allowed access to confidential or personal information. Visitors to areas of the school containing sensitive information are supervised at all times.

The school will regularly test, assess, and evaluate the effectiveness of any and all measures in place for data security.

The school takes its duties under the UK GDPR seriously and any unauthorised disclosure may result in disciplinary action. The IT support team are responsible for continuity and recovery measures are in place to ensure the security of protected data.

When disposing of data, paper documents will be destroyed as confidential waste and digital storage devices will be physically destroyed when they are no longer required. ICT assets will be disposed of in accordance with the ICO's guidance on the disposal of ICT assets.

The school holds the right to take the necessary disciplinary action against a staff member if they believe them to be in breach of the above security measures.

20. Safeguarding

The school understands that the UK GDPR does not prevent or limit the sharing of information for the purposes of keeping children safe.

The school will ensure that information pertinent to identify, assess and respond to risks or concerns about the safety of a child is shared with the relevant individuals or agencies proactively and as soon as is reasonably possible. Where there is doubt over whether safeguarding information is to be shared, especially with other agencies, the DSL will ensure that they record the following information:

- Whether data was shared
- What data was shared
- With whom data was shared
- For what reason data was shared
- Where a decision has been made not to seek consent from the data subject or their parent
- The reason that consent has not been sought, where appropriate

The school will aim to gain consent to share information where appropriate; however, will not endeavour to gain consent if to do so would place a child at risk. The school will manage all instances of data sharing for the purposes of keeping a child safe in line with the Child Protection and Safeguarding Policy.

21. Publication of information

The school publishes a Freedom of Information Publication Scheme on its website outlining classes of information that will be made routinely available, including:

- Policies and procedures.

- Minutes of meetings.
- Annual reports.
- Financial information.

Classes of information specified in the Freedom of Information Publication Scheme are made available quickly and easily on request.

The school will not publish any personal information, including photos, on its website without the permission of the affected individual. When uploading information to the school website, staff are considerate of any metadata or deletions which could be accessed in documents and images on the site.

22. CCTV and Photography

The school understands that recording images of identifiable individuals constitutes as processing personal information, so it is done in line with data protection principles.

The school notifies all pupils, staff, and visitors of the purpose for collecting CCTV images via notice signage, letters, and email. Cameras are only placed where they do not intrude on anyone's privacy and are necessary to fulfil their purpose. All CCTV footage will be kept for up to six months for security purposes; the Estates Manager is responsible for keeping the records secure and allowing access.

The school will always indicate its intentions for taking photographs of pupils and will retrieve permission before publishing them. If the school wishes to use images or video footage of pupils in a publication, such as the school website, prospectus, or recordings of school plays, the school will ensure that consent has been obtained.

Images captured by individuals for recreational or personal purposes, and videos made by parents for family use, are exempt from the UK GDPR.

Parents and others attending school events are able to take photographs and videos of those events as long as they are for domestic purposes only. Photographs or videos being used for any other purpose are prohibited to be taken by parents or visitors to the school.

The school asks that parents and others do not post any images or videos which include any child other than their own child(ren) on any social media or otherwise publish those images or videos.

23. Cloud computing

For the purposes of this policy, '**cloud computing**' refers to storing and accessing data and programs, such as documents, photos, or videos, over the internet, rather than on a device's hard drive. Cloud computing involves the school accessing a shared pool of ICT services remotely via a private network or the internet.

All staff will be made aware of data protection requirements and how these are impacted by the storing of data in the cloud, including that cloud usage does not prevent data subjects from exercising their data protection rights.

If the cloud service offers an authentication process, each user will have their own account. A system will be implemented to allow user accounts to be created, updated, suspended, and

deleted, and for credentials to be reset if they are forgotten, lost, or stolen. Access for employees will be removed when they leave the school.

All files and personal data will be encrypted before they leave a school device and are placed in the cloud, including when the data is 'in transit' between the device and cloud. A robust encryption key management arrangement will be put in place to maintain protection of the encrypted data. The loss of an encryption key will be reported to the DPO immediately; failure to do so could result in accidental access or destruction of personal data and, therefore, a breach of the relevant data protection legislation.

As with files on school devices, only authorised parties will be able to access files on the cloud. An audit process will be put in place to alert the school should unauthorised access, deletion or modification occur and ensure ongoing compliance with the school's policies for the use of cloud computing.

The school's usage of cloud computing, including the service's security and efficiency, will be assessed, and monitored by the DPO. The DPO will also ensure that a contract and data processing agreement are in place with the service provider, confirming compliance with the principles of the UK GDPR and DPA. The agreement will specify the circumstances in which the service provider may access the personal data it processes, such as the provision of support services.

The DPO will also:

- Ensure that the service provider has completed a comprehensive and effective self certification checklist covering data protection in the cloud.
- Ensure that the service provider can delete all copies of personal data within a timescale in line with the school's Data Protection Policy.
- Confirm that the service provider will remove all copies of data, including back-ups, if requested.
- Find out what will happen to personal data should the school decide to withdraw from the cloud service in the future.
- Assess the level of risk regarding network connectivity and make an informed decision as to whether the school is prepared to accept that risk.
- Monitor the use of the school's cloud service, with any suspicious or inappropriate behaviour of pupils, staff or parents being reported directly to the headteacher.

24. Data retention

Data will not be kept for longer than is necessary. Unrequired data will be deleted as soon as practicable. Some educational records relating to former pupils or employees of the school may be kept for an extended period for legal reasons, but also to enable the provision of references or academic transcripts. Paper documents will be confidentially destroyed, and electronic memories scrubbed clean or destroyed, once the data should no longer be retained.

25. DBS data

All data provided by the DBS will be handled in line with data protection legislation; this includes electronic communication. Data provided by the DBS will never be duplicated. Any third parties who access DBS information will be made aware of the data protection legislation, as well as their responsibilities as a data handler.
