H – With the extensive range of extra-curricular activities students who take part are generally **happier** after the rehearsal. This is evident in the large numbers attending morning rehearsals.

I – Students are expected to enter the music department with **integrity**. Students should show a good attitude to learning and respect for the instruments and facilities available to them.

E – Due to the fast pace of the department students show true **endurance** to support the many concerts and events that take place throughout the year. They are exposed to new concepts which they may find challenging but show **endurance** with the calm and efficient way they approach different challenges.

The Eduqas music GCSE course encourages an integrated approach to the three distinct disciplines of performing, composing and appraising through four interrelated areas of study. The four areas of study are designed to develop knowledge and understanding of music through the study of a variety of genres and styles in a wider context. The Western Classical Tradition forms the basis of Musical Forms and Devices (area of study 1), and learners should take the opportunity to explore these forms and devices further in the other three areas of study. Music for Ensemble (area of study 2) allows learners to look more closely at texture and sonority. Film Music (area of study 3) and Popular Music (area of study 4) provide an opportunity to look at contrasting styles and genres of music.

There are no previous learning requirements for this specification. Any requirements set for entry to a course based on this specification are at the school/college's discretion. This specification builds on subject content which is typically taught at key stage 3 and provides a suitable foundation for the study [A level music](#).
