The four areas of study are designed to develop knowledge and understanding of music through the study of a variety of genres and styles in a wider context. The Western Classical Tradition forms the basis of Musical Forms and Devices (area of study 1), and learners should take the opportunity to explore these forms and devices further in the other three areas of study. Music for Ensemble (area of study 2) allows learners to look more closely at texture and sonority. Film Music (area of study 3) and Popular Music (area of study 4) provide an opportunity to look at contrasting styles and genres of music.

There are no previous learning requirements for this specification. Any requirements set for entry to a course based on this specification are at the school/college's discretion. This specification builds on subject content which is typically taught at key stage 3 and provides a suitable foundation for the study [A level music](#).
