Dear Parents,

Calling all our alumni! We are looking to connect and work with our alumni in a more efficient way - including having a regular feature about you in our newsletter. We would also love to invite you to attend and take part in various events. If you studied at our school previously (doesn't matter when - can be one year ago or many moons ago!) we would love to hear from you. Please can you take a few minutes to fill out this form? <https://lnkd.in/eHaDNhjF>

Year 12

Well done on completing a difficult first term in the Sixth Form – there is so much that you need to learn and get used to so you've all done brilliantly. It was a pleasure to be able to reward so many of you in assembly on Monday whether it be attendance, reward points, Achieve Badges or Attitude to Learning grades.

So how can you enjoy your holiday to its full potential? As I write this I am currently writing my own list of things to get done before the start of next term – it is important to be aware of what is outstanding so we can prepare to get the job done right.

Looking ahead to the next term, we'll be spending more time focusing on careers, work experience and nailing those study habits that you've started to develop this term. Over the next week you could:

- Start thinking about work experience: what contacts do you have, what might you like to do?
- Identify some things that you want to improve on next term – commit them to paper now and then enjoy your break knowing that you've set the goal.
- Do something different – its important to get a bit of variety and the next term is a long one too! Have fun!

Ultimately, have a fantastic break. Take the next week to do somethings you like and catch up on some sleep! Be ready to start as you mean to go on at the start of next half term

I hope you enjoyed your Friday Funday Form Time this morning- here is 6CLB enjoying a challenge set by Miss Sterling!

6HWC- I hope you enjoyed your brekkie for your wins this term!

Year 13

It was great celebrating your successes with you this morning. You're a great year group and have started the new year brilliantly. Keep that momentum going into the half-term – the efforts will pay off!

As a reminder:

- 6HWC – Y13 breakfast on Monday 3rd November.

- Free lunch for the following students:

HOW YOU APPLY

2026 ENTRY

Early Entry – The Oxford process

Cambridge Dates can be found here

<https://www.undergraduate.study.cam.ac.uk/apply/application-dates-deadlines>

THINKING OF DEFERRING ENTRY?

This is not always possible so we recommend you check with your course department first.

Tutor resource of the week – Pre reading- the BASMO method

Another way of pre-reading is by using the BASMO method:

Browsing- Skim the material to get a grasp of its structure and the key elements

Annotating- making notes in the margins of pages and underlining key portions with a highlighter will help you remember critical details as you read.

Summarising- after pre-reading the text, make a quick summary of its key points

Mapping- map the text to highlight the connections between various ideas and concepts. Are there any links within what is written?

Outlining- arrange the information you gathered from the text in the previous steps into an outline with main ideas and supportive information.

All study sessions can be found here: <https://www.furzeplatt.com/page/?title=Sixth+Form+Study+Support&pid=84>

Tutor resource of the week – Managing time

- Use one of the following techniques to manage your upcoming deadlines and work.
 - Pomodoro
 - Eisenhower Matrix
 - Study timetable
- Remember that this requires effort, but it helps you to be more effective.
- The **best** students (and workers!) own the time that they have.

Careers with bp – Tues 4th Nov

Are you a female student, or identify as female, and would like to find out about careers with bp?

Although the event is called Women in STEM (Science, Technology, Engineering, and Mathematics), bp offer lots of other roles. I actually used to work there when I was younger as an Events Organiser in their Events team!

Here is an idea of what will be covered in the virtual session:

- Explore the full range of bp's STEM apprenticeship pathways including Engineering, Science, Data, Software, Supply, Trading, Shipping & more
- Hear real stories from current female apprentices
- Get honest advice on how to stand out in your application
- Ask anything in the live Q&A

Register for the event [here](#)
